

Application Fee: \$200.00

Application No. \_\_\_\_\_

Wildwood Water Utility  
3416 Park Boulevard  
Wildwood, NJ 08260  
Irrigation System

Keith Lamb,  
Utility Director

Phone: 609-846-0600

Application is being made for water service, subject to the rules, rates and regulations of the Water Utility, which I am acquainted. I agree to pay the quarterly charges thereafter from year to year until the ownership is either transferred or terminated. All transfers or termination must be provided in writing.

The application will expire six months from the date of issuance of the approved Water Commitment if either the tap has not been scheduled or other prerequisite conditions have not been met. The application will be reviewed within four (4) weeks.

**Wildwood Water Utility  
Irrigation System – Application**

The Irrigation System Application consists of a general information section and a calculation sheet. It is important all the information is completed accurately. This information will be used by our staff to determine the proper sizing of your water service.

The Irrigation System Work sheet needs to be completed by your Irrigation system designer. In order to consider your application, complete we need a drawing signed by your system designer along with his/her detailed calculations for each head and each zone.

Incorrect information will result in your system not performing as designed.

**Fees:**

1. A Non-Refundable application fee of \$200 shall accompany the completed application.
2. Upon acceptance and return of the approval letter a \$3,800 connection fee per calculated unit will be due and payable.
3. Prior to the actual connection to the water service a \$3,800 Tapping Fee per calculated unit is due and payable. The tapping fee is to cover the costs of opening and restoring the road, road opening permits, installing the water meter, pit and all related equipment. This cost can vary depending on your particular installation. The cost of tapping will be estimated by our staff and included in your approval letter.

Once your completed application is received our staff will review it for completeness. Our installation crew will visit the site to determine what work will be required to install your Irrigation water service.

When all the information is gathered and reviewed a determination will be made and communicated to you in a letter.

Please contact us at 609-846-0600 and ask for John Beach if you have any questions.
